## WHAT IS NOVAPAD?

NovaPAD is ShibaNova's public token launchpad, a service platform for Binance Smart Chain projects.

It will act as the final bridge between early-stage projects and the community before the project goes fully public.

Contributions to NovaPAD projects can be done with BNB or BUSD.

## **HOW DOES IT WORK?**

We work with you and adjust our tried and tested presale dAPP to meet your needs, you tell us what you want and we will make it work for you - no contract addresses need to be shared before presale starts - you can choose for your investors to either receive their tokens immediately or later at a time of your choosing. Our smart contact will automatically deduct our fee and automatically add liquidity at the percentage that you decide is right for you - our contracts will automatically send the raised capital minus our fees and the liquidity that you have agreed.

## **HOW DOES IT WORK?**

Because we will be adding 75% of the presale tokens from our fee to our money pot these will be distributed to our sNOVA holders as part of their dividend rewards - this means more interest in your project and potential new investors, this will also increase the amount of wallets that hold your tokens which make for good optics.
